Vintage Doily Necklace

DIY tutorial created by [Andrea Gray Harper](#) for Elizabeth Anne Designs
images by [Jade + Matthew Take Pictures](#)

Super cute and easy, this sewn heart garland is sure to brighten your Valentine's Day party or make an adorable addition to your wedding decor!

Materials:

- assorted paper, card stock is a good weight for sewing into.
- all-purpose sewing thread
- sewing machine
- scissors
- felt craft ball

1) Cut out a variety of heart sizes

2) For the vertical garland, layer different sized hearts on top of one another and sew together down the middle of the heart. Leave about 3 inches in between each heart. Sew some with a singular heart to create interest and variety.

3) Sew the felt craft ball onto the bottom of the garland to weigh it down. A decorative bead will also work for this step.

For the horizontal garland, simply sew hearts in the other direction!

Enjoy!
